-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-29, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Regarding claims 1-29, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Vieira (US 6501906).

Vieira discloses the claimed invention including an evaporation device for evaporating volatile substances such as aromatics, insecticides, and the like comprising-. a housing, a heating body formed from a synthetic heat conducting material (ceramic) carried with said housing; a; heating element molded within said heating body in heat-transfer relationship with said heating body causing said heating body to conduct heat, a wick passage formed in said heating body receiving heat from said heating body, a container carried by one of said housing and heating body for containing a volatile substance to be evaporated, a wick carried in said container having a wick end extending through said wick passage so that the volatile substance is evaporated from said wick by heat transfer through the heating conducting material of said heating body.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-3, 6-14, 18-19, 22-25 rejected under 35 U.S.C. 103(a) as being unpatentable over Vieira in view of Basaganas Millan (US 6594445).

Vieira discloses the claimed invention except the use of a polyamide heating body. Basaganas Millan discloses the use of a polyamide heating body for a wick type vaporizer. It would have been obvious to one of ordinary skill in the art at the time the invention was made, in view of Basaganas Millan, to modify the device of Vieira by making the heating body from a

polyamide in order to avoid using ceramics which require separate potting compounds to seat the heating element.

Claims 5 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vieira in view of Basaganas Millan (US 6594445) as applied to claims above, and further in view of Eckman (US 5835679).

Eckman discloses the use of reinforcing fibers for use with a polyamide resin for strengthening the device. It would have been obvious to one of ordinary skill in the art at the time the invention was made, in view of Eckman and Basaganas Millan, to modify the device of Vieira to use fiber reinforced polyamide for strengthening the device.

Allowable Subject Matter

Claims 4, 15, 16, 20 and 26-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
